Energetic and Passionate College Student working towards my major in Information Technology at Kennesaw State University. I am seeking an internship that will allow me to build experience.

EDUACTION

Bachelor in Information Technology   Expected graduation December 2024
Kennesaw State University

- **GPA: 3.2/4.0**
- **Relevant Coursework:** Programming Principles and Lab, Probability and Data Analysis, Introduction to Web Development, Database Systems, Hardware and Software Concepts.

Projects

QUIZ APPLICATION
- Designed an interactive quiz site using PostgreSQL and JavaScript that allows users to answer questions based on a randomly given question. Created a score System which adds one point for every correct answer.
- Learned to connect and implement databases to my projects.

WEATHER APPLICATION
- Created and designed a beautiful responsive weather site that displays information based on user input. Displays data based on city, zip code, or country.
- Used JavaScript to display the information and make API calls to get relevant information.

Skills

- **Programming**: Java, JavaScript, SQL
- **Web Development:** HTML5, CSS3, Node.js, Express.js, Bootstrap
- **Database:** MySQL, SQL Server, PostgreSQL
- **Version Control:** Git, GitHub.s
